Database

- MySQL
- MongoDB
- Supabase
- Firebase

ABOUT ME

I am a full-stack web developer with expertise in JavaScript, ReactJS, and MySQL. I have a passion for creating dynamic and interactive web applications that solve real-world problems.

With one year of hands-on experience in a maritime technology web application project utilizing Next.js and JavaScript, I have honed my skills in developing innovative solutions tailored to the needs of the maritime industry. Additionally, my journey in full-stack web development has equipped me with a comprehensive understanding of JavaScript, React.js, Express.js, and MySQL. With my technical skills and experience, I am confident in delivering high-quality and user-friendly projects.

I also have a wealth of experience in other fields. I have a strong work ethic and am always eager to apply my skills and knowledge to tackle new challenges. I am confident that my diverse background and strong problem-solving skills will allow me to make a valuable contribution to any team or project.

EXPERIENCES

January 2024 – Present

PT TITIP, Central Jakarta

- **Software Engineer**

Continuing the project of titip.io initiated by PT Tunas Digital Indonesia, I still hold the responsibility as a front-end developer.

March 2023 – January 2024

PT Tunas Digital Indonesia, South Tangerang

- **Software Engineer**

As a software engineer entrusted with the role of a front-end developer.

PROJECTS

2023, Titip.io, Maritime Technology

Titip.io is a maritime bulk transportation technology to eliminate or minimize waiting time, delays, and other inefficiencies.

- Demo : <https://titio.io>
